

Snowtown

 WIND FARM

Tilting towards the future.

Snowtown 1 and Snowtown 2 continue to be the ‘wind capital’ of South Australia with high levels of generation at both wind farms.

This November newsletter includes updates on:

- What’s been happening onsite
- Report back from successful Lend a Hand applicants
- The Lend a Hand fund application process

Sign up and stay informed.

Make sure you are signed up to receive updates by hovering over the QR code. For further information on the Snowtown Wind Farm please contact us at info@tiltrenewables.com or on 1800 WE TILT (938 458).

Project update

Snowtown Wind Farm 1

Snowtown 1 Wind Farm generated **325 GWh** of clean energy over the last 12 months (end Oct 2024).

In April, you may have also seen some extra people on site as Tilt Renewables and the Suzlon Energy Australia team completed an environmental compliance audit. This is an important activity to make sure we continue to meet our environmental obligations.

Power
54,000
households

Prevent
113,000

tonnes of carbon dioxide
from entering the atmosphere
(the same as taking 53,000
cars off the road)

On the 25th June Snowtown 1
Wind Farm generated over

2.2 GWh

the best performing day
of the year.

Snowtown Wind Farm 2

Snowtown 2 Wind Farm generated **788 GWh** of clean energy over the last 12 months (end Aug 2024). That is enough to:

Power
132,000
households

Prevent
276,000
tonnes of carbon dioxide
from entering the atmosphere
(the same as taking 130,000
cars off the road)

On the 28th June Snowtown 2
Wind Farm generated over

588 GWh

the best performing day
of the year.

Lend a Hand

Report back from successful Lend a Hand applicants

Alongside the Lend a Hand committee we are proud to be able to support great projects in the community.

Lending a Hand to Local Sports – North Eastern Netball Association (NENA)

Lend a Hand sponsored the renovation of the Snowtown netball/tennis courts. With work starting in September, the refurbished courts were officially opened on the 1 May in time for the new Northern Eastern Netball Association season.

Royal Flying Doctors Service Outback Car Trek

Tilt Renewables and Snowtown 2 Wind Farm were pleased to support the 2024 RFDS Outback Car Trek by sponsoring Team Cobber. This great initiative provides funding to the Royal Flying Doctors Service, helping their medical teams support rural communities.

Team Cobber raised an outstanding \$175,000 for the RFDS. The eight drivers on the team drove from Bendigo, Victoria all the way to the Gold Coast, Queensland. The team are already planning for their next RFDS trek in 2025.

Snowtown Planting Day

Tilt Renewables partnered with the Snowtown Community Management Committee (SCMC) to purchase native seedlings for restoring Snowtown's native grasslands, revegetation of the walking corridor between Snowtown and Bute, and providing a sensory garden for the local retirement home. In July our staff took part in a volunteer day with the Snowtown Community Management Committee where they planted 450 native shrubs and trees. The highlight for the day was learning about the rich history of the local landscape as the SCMC members shared stories of growing up on Gaurna / Kaurna Country.

Lend a Hand Foundation

The Snowtown Wind Farm Lend a Hand Foundation program is a community benefit fund that provides funds to community projects and initiatives in the local area. The program is administered by an independent, locally based community group.

Applications for funding are on a rolling basis, meaning you can apply for funding at any time of the year. For more information about the application process, please visit our webpage:

[Community fund and engagement — Tilt Renewables.](#)

On the webpage, you will find more information about the Application Guidelines and how to apply.

 **We wish everyone a safe and happy holiday season!**
