Tilt Renewables is proud to announce that Executive General Manager Government and Sustainability, **Angela Catt**, has been nominated for a role on the Board of Directors of the **Clean Energy Council**.

As Australia's largest owner operator of wind and solar, **Tilt Renewables** couldn't be more thrilled for Angela to be nominated.

The opportunity to join esteemed colleagues across the sector, all looking to represent the peak body for the clean energy industry and drive change through policy and advocacy, is something that Angela looks to with enthusiasm.

Details of the 36 nominees can be found on the CEC website, and we look forward to the election results on the 27 November 2024, when 5 new members will join the Board, with a view to accelerate the energy transition across Australia.

ANGELA CATT

"I believe the CEC should be the undisputed voice for the renewable electricity industry. With many new investments directed towards clean energy projects and the necessary transmission infrastructure, it is crucial for the CEC to lead this transition."

 **Australia's
Renewable
Future**
