

Coopers Gap

WIND FARM

Tilting towards the future.

The Coopers Gap Wind Farm is helping reduce Australia's carbon footprint by generating enough clean energy to power up to 232,000 Queensland homes per year.

The Coopers Gap Wind Farm is located 250 km north-west of Brisbane near Cooranga North, between Dalby and Kingaroy. The project area is on land that is mainly used for cattle grazing and other farming activities.

The Project has 123 turbines capable of producing up to 453 MW making it Tilt Renewables' biggest wind farm and one of the biggest in Australia.

The wind farm connects to the National Electricity Market via the Western Downs to Halys 275 kV transmission line via a new substation.

Construction commenced on Coopers Gap Wind Farm with substation earthworks in September 2017, and with first generation in June 2019. Coopers Gap Wind Farm completed commissioning in March 2023 and is now fully operational. Coopers Gap Wind Farm will produce approximately 1,515 GWh annually.

PROJECT SNAPSHOT

Number of Turbines: 123

Blade Tip Height: 180m

Operations & Maintenance Buildings: 1

Collection Substations: 1

Internal Roads: 90km

HOSTING A WIND FARM

Interested in hosting a wind farm? Tilt Renewables is developing new sites across Queensland and Northern NSW.

To find out more about whether your property would be suitable, please contact the team on 1800 938 458.

Coopers Gap Wind Farm Community Enhancement Fund

The aim of the Coopers Gap Wind Farm Community Enhancement Fund is to support small, not for profit organisations and individuals in and around the Project area by providing funding towards projects, goods or services that benefit the broader community.

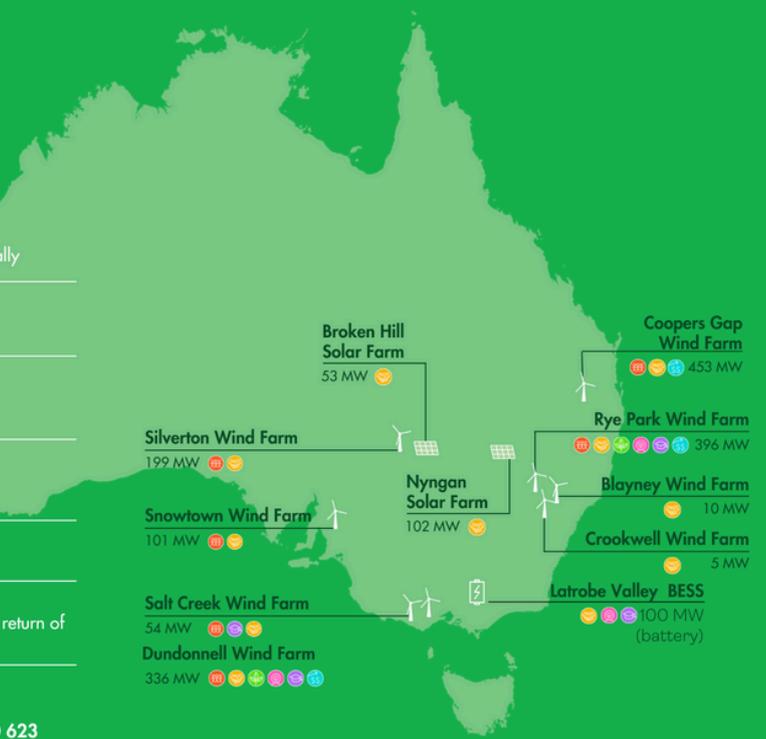

The Community Enhancement Fund provides this support via sponsorships, donations, and financial support for community development programs and grants. It is designed to support the community within 25kms of the Coopers Gap Wind Farm with a focus on the communities of Bell, Jandowae and Kumbia.

For more information on the Community Enhancement Fund visit: www.tiltrenewables.com
